

Door and drawer order form directions

Customer Information:

- Fill in all header information to insure your order is processed correctly. Missing information may cause a delay in your order.
- Fill in the page number. Since it is possible for pages to separate during processing, numbering them ensures that your order is processed correctly and in a timely manner.
- Use a unique purchase order number or name for every purchase or order submitted to New England Drawer and Door. This will help eliminate duplication of orders.

Door and drawer front information:

Design

- In the space provided, enter the door design and drawer front design. Design selections can be found on our design page, but for now we are only making the CRP-10 style. As we add more we will update the door style page.

Thickness

- Choose between $\frac{3}{4}$ " and 1" thick doors.

Species

- Enter the wood species in the space provided. When choosing maple, specify hard or soft or PGHM. When choosing Birch or Oak please specify red or white.
- Not all designs are available in all species.

Grade

- Select your choice of grade.

Raised panels

- Enter the raised panel in the space provided
- Please note that some raised panels are only available in $\frac{3}{4}$ "
- Note that all panel on our webpage are depicted in $\frac{3}{4}$ "

Edge profile

- Enter the edge profile in the space provided
- See the edge profile page for available options

Framing bead

- Enter the framing bead in the space provided. Please refer to the regular bead as "regular" not "standard".

Finish

- If prefinish products are desired please select yes and select the sheen desired or select the primed option for paint grade.

Grain direction

- Doors will be manufactured with vertical grain direction unless specified otherwise.
- When ordering drawer fronts choose between horizontal and vertical grain. Horizontal grain is standard unless requested otherwise.

Special instructions

- Please indicate any special instructions that pertain to the entire order. Any other options, such as, specific framing widths, panel routing, sanding options, etc should be entered here.
